

## Driver's Meeting Review

Hello Everyone! There are a few things I wanted to cover before we get the day started. Please keep in mind that our day runs on a time sensitive schedule, we depend on each and every participant and volunteer to be on time so that we can have another awesome day! Keep in mind that that we place a lot of responsibility on you as a driver to use your good decision making skills while on track. Please be courteous to your fellow drivers both on and off the track. While in the paddock, there is a strict 5mph speed limit. We like to promote a family friendly event and as such, there may be children present. Our pit lane speed limit is 15mph. We will pre grid the groups in pit lane. please enter pit lane using the entrance between the garage bathrooms and the trophy presentation podium. Once on pit lane, please back up to the pit lane wall diagonally. We would like to have the ENTIRE group on pit lane 5 minutes prior to the start of your run group. When your group starts, please use the extended motorcycle track entrance which will take you all the way down to turn two. While on track, please give a point by so that everyone is aware of those around them. DURING YOUR SESSION, if for any reason you should have to exit the track, please use the pit lane exit. If pulling off for an on track issue (meatball flag, sound violation, mechanical ect.) Please go all the way up pit lane, and stop before the bridge and wait for an official. If you happen to have an off track excursion and have to be towed out, please remain in your vehicle until the tow vehicle arrives. Please have your tow point marked in plain sight for the tow crew to see. When the checkered flag comes out, please use the track exit on your left directly after turn 9. (the downhill left turn after the corkscrew) For those who have classroom sessions, please meet in the classroom immediately after your session. If you would like to park in front of the classroom after your session and leave your engine bay open to aid in engine cooling, please feel free to do so. I hope that everyone has done a quick flag review, this will be a huge help while on track. During lunch we will have assorted beverages to quench your thirst, please enjoy. Carlos will have photos available for viewing after lunch. Please be sure to review the photos so that you can let him know which photo you would like for your free 8x10. Keep in mind that Carlos is offering a HUGE discount on the photo CD, \$25 off if you purchase it the day of the event. The CD will have all your high quality action shots from your track day at Mazda Raceway Laguna Seca, so please do take advantage of this offer. That about wraps it up folks. I look forward to a fantastic day! Have fun, Be safe, and bring it back in one piece! -Peter J. Husser
